Description:

"[Tyson] tackles a great range of subjects . . . with great humor, humility, and—most important— humanity." —*Entertainment Weekly*

Loyal readers of the monthly "Universe" essays in *Natural History* magazine have long recognized Neil deGrasse Tyson's talent for guiding them through the mysteries of the cosmos with clarity and

enthusiasm. Bringing together more than forty of Tyson's favorite essays, *Death by Black Hole?* explores a myriad of cosmic topics, from what it would be like to be inside a black hole to the movie industry's feeble efforts to get its night skies right. One of America's best-known astrophysicists, Tyson is a natural teacher who simplifies the complexities of astrophysics while sharing his infectious fascination for our universe.
