NOTE: Used books, rentals, and purchases made outside of Pearson

If purchasing or renting from companies other than Pearson, the access codes for the may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase.

This package includes the bound book and MyLab Counseling with Pearson eText.

Designed to help students and new counselors acquire multicultural counseling competence, this book includes self-development opportunities for fostering awareness, knowledge, and the skills necessary for understanding cultural makeup, understanding others of diverse identities and experiences, and engaging in facilitative counseling relationships. Expanding on the features that made the first two editions widely popular, this revision provides a closer look at how to apply the information in practice through an expanded number of case studies and “Voices from the Field” features. The new edition includes additional information on ethics in multicultural counseling and operationalization of the 2015 multicultural and social justice counseling competencies; increases the focus on international and refugee populations and immigration issues; and provides additional coverage on alternative counseling approaches with multicultural competencies.

Personalize learning with MyLab Counseling

MyLab™ Counseling is an online homework, tutorial, and assessment program designed to work with the text to engage students and improve results. Within its structured environment, students see key concepts demonstrated through video clips, practice what they learn, test their understanding, and receive feedback to guide their learning and ensure they master key learning outcomes.
